

Workforce Development Leadership Training

Job seekers from under resourced communities participate in a 51-hour classroom style training which focuses on enhancing their skills and competencies. Industry-specific skills are covered as well as job development, placement, and retention.

Guided by instructors and guest speakers, participants are trained on:

- World-class customer service
- Work readiness
- Leadership
- Computer fundamentals
- Employment placement

Upon graduation from the Workforce Development Leadership Training, participants receive action plans, mentoring, and follow-up face-to-face meetings. These subsequent steps help participants manage challenges while supporting retention for those businesses that serve as our community partners.
